SHUBHAM NIRMAL

MERN Stack Developer

shubhamnirmal2612@gmail.com $\diamond +91$ 7875573370 \diamond linkedin \diamond github

OBJECTIVE

A highly motivated and fast-learning **MERN Stack Developer** with hands-on experience in building dynamic and scalable web applications. Passionate about designing responsive UIs, developing robust backend systems, and integrating APIs to deliver seamless user experiences. Currently interning as a MERN Stack Developer to gain real-world experience in full-stack development.

EDUCATION

Bachelor of Computer Science

2022 - 2025

Dr. Babasaheb Ambedkar Marathwada University — Percentage: 79%

Sambhajinagar, Maharashtra

TECHNICAL SKILLS

• Frontend: HTML, CSS, JavaScript, React.js, Talwindcss

• Backend: Node.js, Express.js

• Database: MongoDB, MySQL ,SQL

• Other Tools: Git, GitHub, REST API,

EXPERIENCE

MERN Stack Developer (Intern)

Jun 2025 – Present

WorldDoor Infotech Pvt. Ltd., Pune (Remote/On-site)

- Assisting in the development and maintenance of internal web applications for industries like Steel, Real Estate, and Pharma.
- Building reusable and scalable components using React.js to improve development efficiency.
- Writing clean, modular, and optimized code for both frontend and backend environments.
- Implementing API integrations and ensuring secure data handling using Node.js and Express.js.
- Working with MongoDB for data modeling, querying, and database optimization.
- Utilizing Git and GitHub for version control and collaborative development.

PROJECTS

Personal Portfolio (React)

- Developed a fully responsive personal portfolio website to showcase my skills, projects, and contact details.

Technologies: React.js, React-dom, HTML, CSS, JavaScript, GitHub Pages

Key Steps:

- Designed a modern UI layout using React-Bootstrap components for a professional look.
- Implemented smooth navigation using React Router for multi-page routing.
- Added sections: About Me, Skills, Projects, Education, and Contact with form validation.
- Integrated social media links (LinkedIn, GitHub) and optimized SEO meta tags.
- Deployed the website on GitHub Pages for live accessibility.

Doctor Appointment Booking System (MERN Stack)

- A full-stack web application for managing medical appointments, patient records, and doctor availability. **Technologies:** MongoDB, Express.js, React.js, Node.js, REST API, JWT Authentication **Key Steps:**

• Frontend (React.js):

- Designed responsive UI using React and Bootstrap.
- Created components for booking appointments, viewing reports, and managing profiles.

• Backend (Node.js & Express.js):

- Built RESTful APIs for CRUD operations (appointments, doctors, patients).
- Implemented authentication & authorization using JWT.

• Database (MongoDB):

- Designed schema for doctors, patients, appointments, and reports.
- Enabled secure data storage and retrieval with Mongoose.

• Additional Features:

- Real-time doctor availability updates.
- Patient report tracking and download functionality.
- Admin dashboard to manage doctors, patients, and appointments.
- Deployment: Deployed using MongoDB Atlas (database) and Node.js server.

INTERESTS AND HOBBIES

- Helping In Society.
- Creating Short Video.
